

PIGMENT PRODUCT SHEET

Date: 06/2014

PRODUCT

Description: Tierrafino Pigment is a range of pigments developed for the coloring of

Tierrafino Stone Tadelakt. Pigment can also be used in combination with

other Tierrafino products.

Composition: Oxides of various metals.

Packaging: 500 gram container, except for Pigment Gold Ochre: 250 gram container.

Consumption: Not applicable.

Storage advice: Store dry and cool but free from frost.

Workability: When stored in a well closed container and according to the storage

advice, Pigment can be kept indefinitely.

AREA OF APPLICATION

Pigment is a range of lime- and cement resistant pigments that is suitable to use in combination with lime products. Pigment can also be added to Tierrafino Finish, Duro, T-Paint, Listro and I-Paint. To create veiled techniques on Finish, Duro and T-Paint, mix Pigment with Tierrafino Fix and water. Do not use Pigment Ultramarine Blue in wet and humid spaces.

PROPERTIES

- Ready to use
- Odourless
- Pigment is lime- and UV resistent. All pigments are water resistent except for Ultramarine Blue.
- DIY/Professional

APPLICATION

Circumstances: Follow the instructions of the product to which Pigment is added.

Mixing: Pigment can be mixed with Tierrafino Stone Tadelakt in two ways; mix the

dry Pigment with dry or wet Stone. Do not add more than 10% Pigment to Stone Delphi white in wet cells like showers and steam rooms. Do not add more than 5% Pigment to Stone Dover White to prevent the color rubbing off. All standard colors Tierrafino Stone Tadelakt besides Delphi White contain the maximum amount of earth pigments, do not add extra Pigment

when applied in showers/wet spaces.

To color I-Paint and Listro: soak Pigment in plenty of water for at least 24 hours. Stir regularly during this time. Add the pigment and water mixture

to I-Paint or Listro while mixing electrically.

Soak Pigment in water for at least 24 hours to make mixing with Tierrafino Finish, Duro and T-Paint easier. Pigment can be added to Finish, but also add Tierrafino Fix to prevent the color rubbing off. Apply Fix at a later stage or mix it with Finish and Pigment and follow the instructions in the Product

sheets of Finish and Fix.

Thinner: Water.
